

## THE Trench Pile Specifications

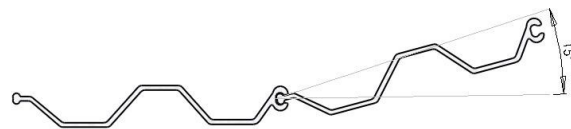

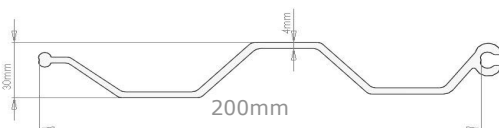

THE Trench Pile is the lightest plastic pile of our range.

It was introduced primarily for shoring applications where there was a need for a shallow cross section, with a centre pan for the frame wedge.

This product is an excellent shoring shield, but has limited strength for soil support

Pile	Trench Pile	<b>G200</b>
Quantity per metre wall		5
Allowable Bending Moment (M) FOS = 3	kNm/m	<b>0.42</b>
Section Modulus (Z)	cm <sup>3</sup> /m	26.13
Moment of Inertia (I)	cm <sup>4</sup> /m	45
Effective Pile Width	mm	200
Depth/Diameter of Section	mm	30
Thickness (if Section or Tube)	mm	4
Material		pvc
Weight per m (product)	Kg	1.70

Unit 19 Cinder Road Zone 3 Burntwood Business Park Staffordshire WS7 3FS
